## **NEW ARHM MEMBER**

The Association of Retirement Housing Managers pleased to welcome **Warwick Estates Property Management** as members of the ARHM.

Warwick Estates was formed in 2007 as a Residential managing agent. The company has grown very quickly since formation and currently manages around 10,000 residential units.

In 2009 Warwick Estates gained management of its first retirement development and now has a separate division concentrating on this area of management.

Warwick Estates has always tried to offer a different angle on managing buildings by limiting the number of schemes each Property Manager has responsibility for. This has led to our rapid growth and also to the company winning the prestigious "Property Management Company of the Year" award at the recent News on the Block awards ceremony.
